

# aquaManager

Control your Production  
for Maximum Profitability!

Management  
Tool

Production  
Optimization

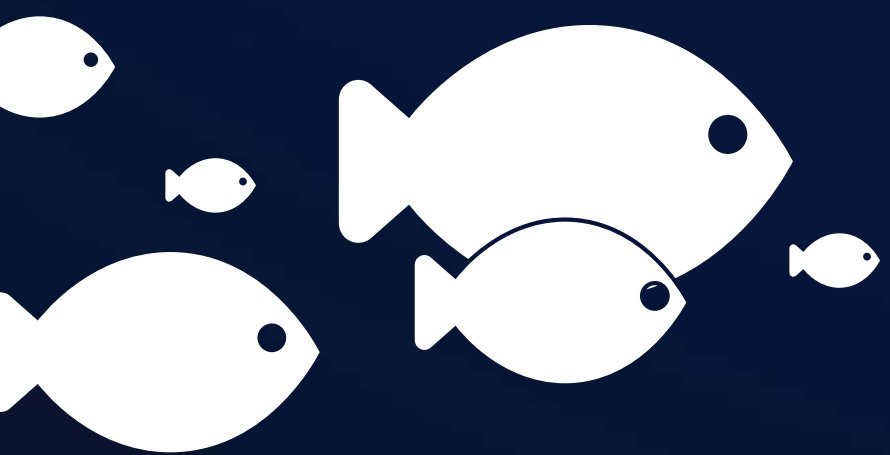

# Much More than a Production Control Software

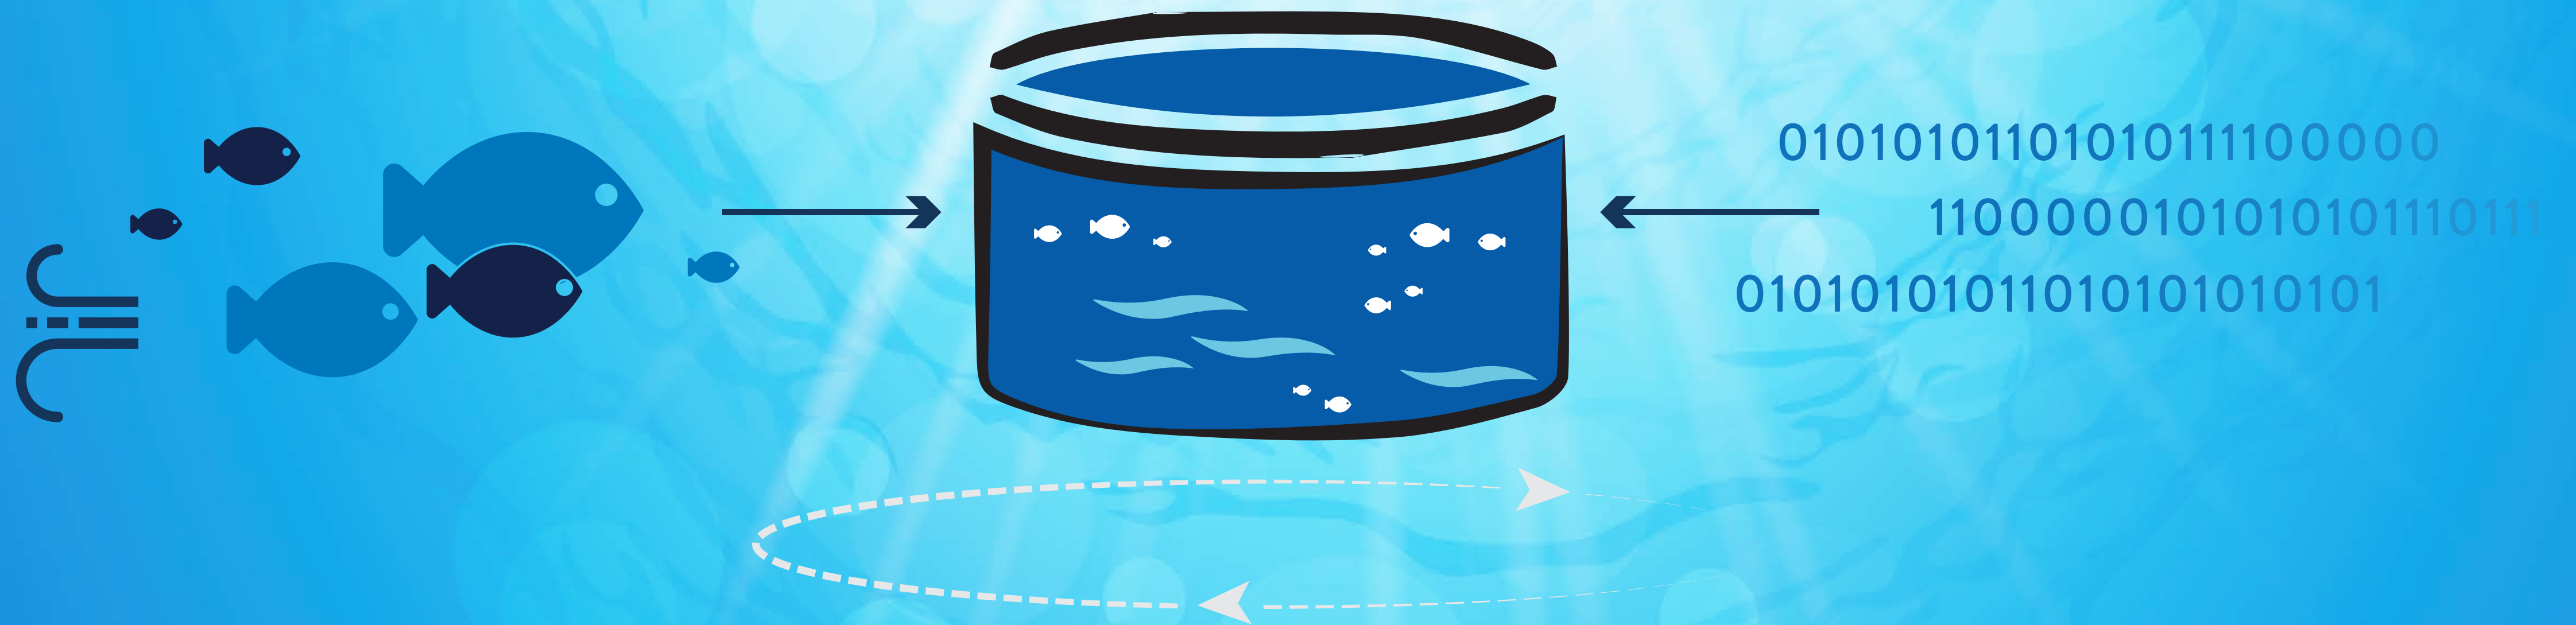

Cost  
Reduction

Performance  
Improvement

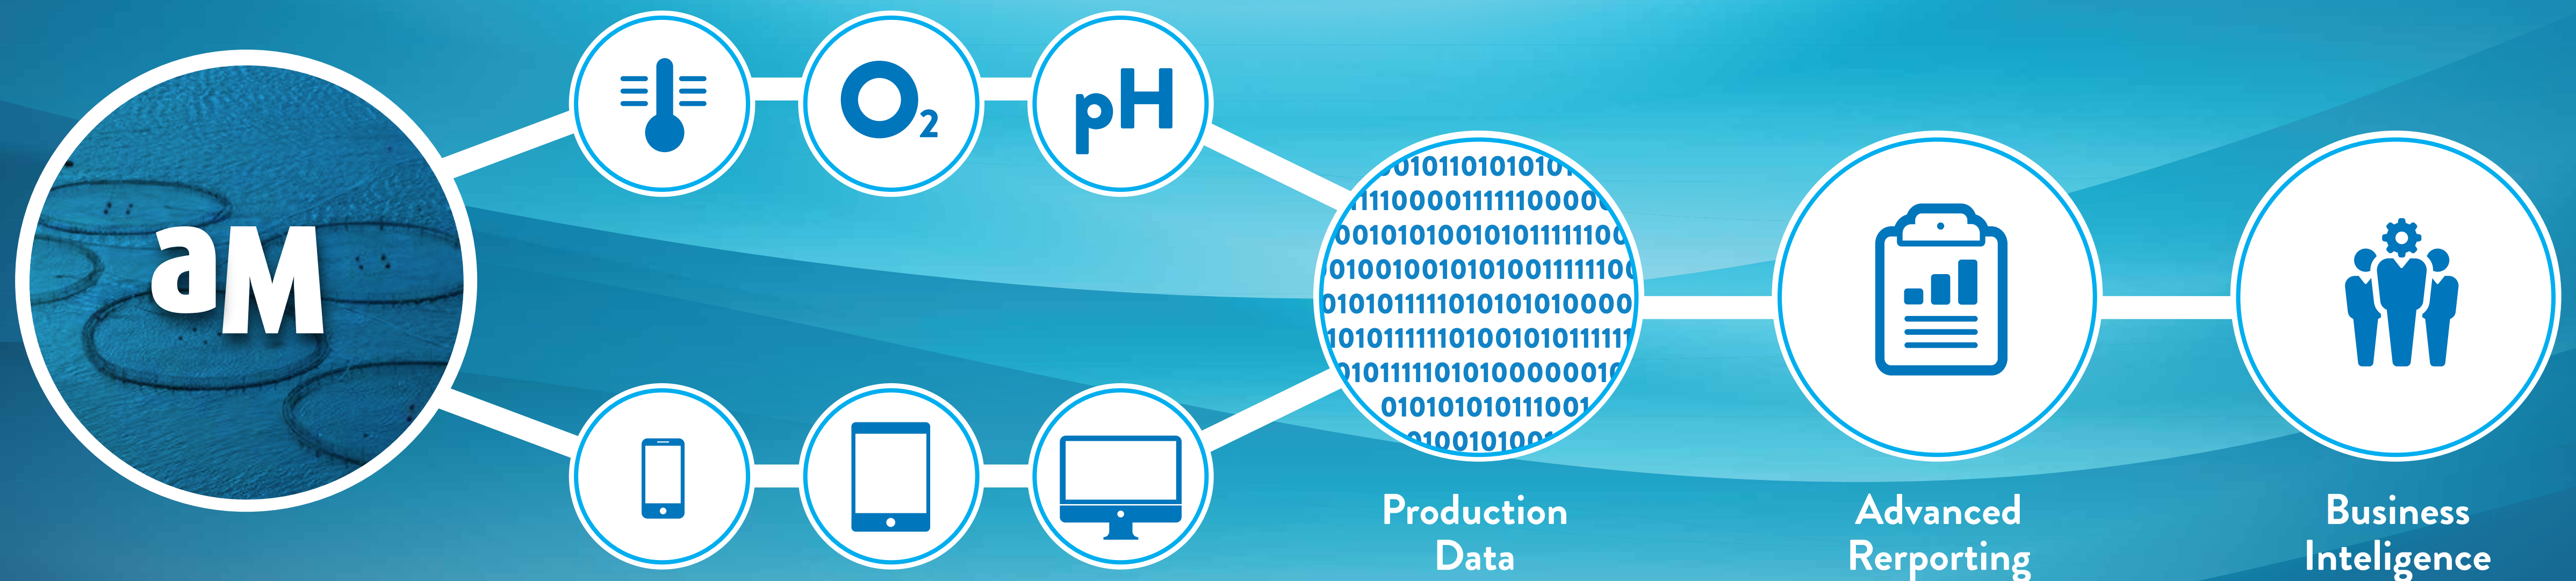

It supports all stages of fish production  
from Hatchery to Harvest

# It is an integrated solution

from **Data Collection & Management** to  
**Advanced Reporting & Business Intelligence**

It provides  
**Business Intelligence & Data Mining Tools** that help you to...

Convert Data  
into Knowledge

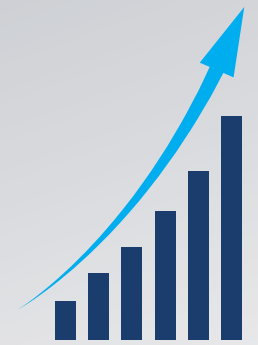

Continuously  
Improve Feeding  
and Growth

Evaluate Feed  
Suppliers & Production  
Strategies

Optimize  
Production

Improve  
Efficiency

# It is Practical & Easy to Use

You can **Control your Production in Real Time & Access your Data from Everywhere**  
using **Windows, Web or Mobile Applications**

# Superior Performance

It uses **State-of-the-Art Technologies for Superior Performance**,  
even with thousands of cages, ponds or tanks

# Support for Decision Making

It helps you Effectively Analyze Performance & Take Decisions at any level. You will be able to explore your data in a way you have never done before and move the management of your company to a completely new level!

The background features several blue circles of varying sizes scattered across the white space. In the top right corner, there is a cluster of blue fish icons of different sizes, some swimming towards the right.
